

Lengths and sleeve lengths of the my pulli sweaters, cardigans and vests

Here you find the lengths of our knitwear to help you decide which standard size fits you best and whether you need a normal, tall or petite standard size. We all have different body proportions, so a person's height is often not enough to determine the best fit.

Sweater Length (D): Measure the total length of the sweater from the top of the shoulder to the hemline.

Total Sleeve Length (Z): Measure from the center of the back of the collar over the shoulder to the end of the cuff.

Men's Lengths

Standard Sizes:	44	46	48	50	52	54	56	58	60
